

TITAN

MODEL TH 2

PLANETARY WINCH

2 METRIC TON HOIST CAPACITY

The TITAN TH 2 Planetary Hydraulic Winch features a 2 stage planetary reduction, combined with an automatic static and dynamic disc brake. A hydraulic brake or counterbalance valve is not required for safe and smooth control of a lowering load.

optional high pressure hydraulic motors - integral external brake release
stainless steel drum seal surfaces - polyester powder coating
rubber coated seals - graphite resin brake plates - no case drain required
plated or stainless steel fastener options - 2 year warranty
